How to add Hebrew keyboard

**Mac:**

1. Choose Apple menu > System Preferences, click Keyboard, then click Input Sources.
2. Click Add (+), search for “Hebrew”, then select either Hebrew – PC or Hebrew - QWERTY.
3. When you add an input source, the option to show the Input menu in the menu bar is automatically selected. The Input menu on the top right of your screen lets you quickly switch input sources as needed.

**Windows 10:**

1. Choose Start menu > Control Panel
2. Under Clock, Language, and Region, Click Add a Language
3. Click Add a language again, in the top right search for “Hebrew”, then click on the tile and select add.
4. You should be able to toggle between languages on the bottom right corner of your menu bar.

**Windows 7:**

1. Open Region and Language by clicking the Start button clicking Control Panel, clicking Clock, Language, and Region, and then clicking Region and Language.
2. Click the Keyboards and Languages tab.
3. Under Display language, click Install/uninstall languages, and then follow the steps.

**iOS (iPhone):**

1. Launch Settings from your Home screen.
2. Tap on the General button.
3. Swipe up to scroll down the menu.
4. Tap on Keyboard.
5. Tap on the Keyboards button.
6. Tap on Add New Keyboard.
7. Swipe up to scroll down the list of options.
8. Tap on the Hebrew keyboard.

For your convenience, various Hebrew keyboard covers, or stickers can be purchased on Amazon or elsewhere online.
